

## PETITION TRANSMITTAL FORM

Date: \_\_\_\_\_

To: Persons Interested in Circulating a Petition for a Traffic Control Device

From: City of Yakima Supervising Traffic Engineer

Subject: Petition Transmittal

---

This is the petition form you requested. When circulating it in your neighborhood, please make sure that those who sign are well aware of what they are supporting. In reviewing petitions, staff looks for a solution to a problem, an indication of neighborhood consensus, optimum use of public facilities and an improvement in public safety. A decision may be made administratively without hearing, or through City Council action, depending on the situation.

The petition must be circulated to all those who would be directly affected by the traffic control or parking regulatory change, or action by the City of Yakima will likely be delayed. If you need to discuss this, please feel free to call:

Joan Davenport, Supervising Traffic Engineer  
or  
Bill Quitta, Traffic Associate  
575-6005
